### **Click to call me back**

The immediacy and speed in the communications of your company means an increase in the positive evaluations of your clients and in the economic benefits in the medium and long term.

From Neotel we can help your company's telephone attention to be more direct and therefore more effective, thanks to our Click to call me back button. An application that allows you to contact the user who is visiting your website as quickly as possible. The instantaneousness of this service is its main advantage since your client or future client will not have to wait practically anything to be able to speak with your company. By entering your number, an Agent will soon be able to contact you.

The image that your company projects will be reinforced in this way as well as increasing the telephone attention and the probability of sale. And all this without installation or configuration of programs. Its implementation is only a click away.

## Click to call me back

Make the **“Click to call me back”** button on your website available to your customers.

Just enter a number and by clicking on it your customer will be called.

Speed and immediacy in communications.

Improvement and reinforcement of the image of your company.

Optimization of the telephone attention, being more direct.

All this translates into:

More sales.

More economic benefits.

Better valuations.

For only **25€/month.**

**Control for your business.**
