# Virtual Server

Physical Server

Virtual Server

Subject to breakdowns typical of any physical machinery.

Hosted in the cloud, based on redundancy systems.

Our information is at constant risk if we do not make backups.

The Virtual Server has an automatic copy management system.

Extra expenses for possible breakdowns.

There are no costs for repairs and contracts.

Surcharge of energy to have to be operative the 24h of the day.

Maintenance by Neotel.

Occupies office space.

Without facilities in its headquarters.

Neotel has its own range of Data Center Products including Linux Virtual Machines, Windows, and Dedicated Server.

Choose the server modality that best suits your needs and at the best price.
