Distributors

Do you want to be a provider of the most advanced technology in Telephony? Be a distributor of Neotel's telephone products.

Why Neotel?

Because we have been serving in the Telecommunications sector since 2001, placing us as one of the most relevant companies in the market.

Why distribute Neotel services?

We offer a wide range of solutions in Telephony. With extensive experience, together with a long career in the Telecommunications sector that guarantees our clients only the best services.

Without permanence for your client.

The telephone products of Neotel modernize their communications assuming a great saving in the expenses of their business and a versatility in their operation.

Get very attractive commissions for hiring your customers. We will provide commercial material and qualified personnel at your service to offer a solution adapted to the needs of each client and help you in all your queries.

Become a Neotel distributor and take advantage of our experience in the telecommunications sector.

We have been in the Voip sector since 2001, a technology that allows companies to contract services at a lower price with no initial investment.

IP telephony means a drastic reduction in costs.

Versatility and functionalities that do not exist in traditional telephone systems.

Market trends and new business models are changing the way we see and understand communications.

Get profits month by month being a Neotel distributor. With each client that registers, you will generate commissions during the time that the service is active.

Control for your business.
