Premium Call Recordings

Currently our Virtual PBX offers you the possibility to save the recordings of your calls for two months, but:

What if you need something else?

At Neotel we offer you Premium Call Recordings.

An extension of the time and space you have to store the calls your company makes and receives.

Increase the time you have for your recordings from two months to two years. Access your calls from anywhere with Internet access as they will be stored in a cloud with a terabyte of capacity.

This service includes access to the Web where you will find your personal library of recordings, with search filters to quickly find the files you need. Access it from anywhere in the world.
